SUMMARY

Full Stack Developer with hands-on experience building production-grade web applications using **Next.js**, **TypeScript**, and **React.js**, with backend experience across **Convex**, **Prisma**, and **PostgreSQL**. Delivered production-deployed projects including a freelance full-stack platform build, a full-featured e-commerce platform, and a real-time social media app — with modern authentication, database-backed business logic, and REST API integration. Focused on clean architecture, reusable components, and shipping polished user experiences.

EXPERIENCE

Freelance Full Stack Developer — Afaq (Exhibition & Events) [Live Demo](#) *July 2026 – Present*

- A high-performance website for an event and exhibition agency using Next.js, TypeScript, Tailwind CSS.
- Integrated Sanity CMS with structured schemas and PortableText rich-text rendering, enabling non-technical client team members to manage dynamic page content effortlessly.
- Built a secure contact form pipeline using Next.js Server Actions, Zod validation, and Resend API for reliable transactional email delivery with real-time UI status alerts.
- Configured production infrastructure, including custom GoDaddy domain DNS records, Vercel deployments, and Google Analytics tracking.

Freelance Full Stack Developer — In Light Consumer Insights [Live Demo](#) *May 2026 – Present*

- Built and shipped the company's marketing website using Next.js, Shadcn UI, and server actions for backend logic, with a contact form pipeline powered by Resend, React Hook Form, and Zod validation.
- Designed and built a full-stack survey and rewards management platform with four role-based portals — Admin, Respondent, medical respondent and Client — using Next.js, TypeScript, and Convex for the real-time backend and database.
- Implemented authentication with Clerk, UI with Shadcn, and form handling with React Hook Form + Zod; established a typed status-return pattern for business logic and thrown errors for auth/system failures across Convex queries and mutations.

Frontend Developer Intern — Route Academy *June 2025 - Feb 2026*

- Built and deployed 2+ full-stack web applications from scratch using JavaScript, React.js, TypeScript, Next.js, and REST APIs, covering auth, CRUD operations, and responsive UI.
- Implemented production patterns including component-based architecture, custom hooks, protected routing, server-side rendering with Next.js App Router, and form validation with React Hook Form + Zod.
- Managed global state with Redux Toolkit and server state with TanStack Query, gaining practical experience in both client-side and API-driven data flows.

PROJECTS

Cartify — E-Commerce Platform [Live Demo](#) | [GitHub](#)

- Full-stack e-commerce platform with product browsing, filtering, cart, wishlist, and checkout — built with Next.js 15 App Router, NextAuth.js for authentication, and Redux Toolkit for global state.
- Implemented server-side rendering for product pages, async dynamic route params, and form validation with React Hook Form + Zod. Styled with Tailwind CSS and Shadcn UI.
- **Tech:** Next.js 15, NextAuth.js, Redux Toolkit, Shadcn UI, Tailwind CSS, React Hook Form, Zod

FluxCircle — Social Media App [Live Demo](#) | [GitHub](#)

- Social platform supporting post creation, likes, comments/replies, and real-time notifications, with JWT-based authentication, protected routes via AuthContext, and paginated feeds with load-more behavior.
- Built custom hooks for posts, comments, and likes; integrated Axios interceptors for token refresh and error handling.
- **Tech:** React.js, React Router DOM, TanStack Query v5, React Hook Form, Zod, Axios, Tailwind CSS, HeroUI

NutriPlan — Calorie & Nutrition Tracker [Live Demo](#) | [GitHub](#)

- Vanilla JS application for logging meals, tracking daily calorie intake, and visualizing weekly nutrition data — built with OOP principles for clean, maintainable architecture.
- **Tech:** HTML, Bootstrap, Vanilla JavaScript, OOP

ContactHub — Contact Management System [Live Demo](#) | [GitHub](#)

- CRUD contact manager with Favorites and Emergency categories, supporting 1,000+ contacts with 100% client-side data persistence via localStorage.
- **Tech:** HTML, Bootstrap, Vanilla JavaScript

SKILLS

Frontend: HTML5 • CSS3 • JavaScript (ES6+) • TypeScript • React.js • Next.js • Tailwind CSS • Bootstrap

Backend & Database: Convex • Prisma • PostgreSQL • Next.js Server Actions • Next.js Route Handler • REST APIs

Libraries & State: Redux Toolkit • TanStack Query • React Hook Form • Zod • NextAuth.js • Clerk • Axios • Resend • Nodemailer • Shadcn UI • HeroUI

Tools: Git • GitHub • Vercel • Postman • Vs code • Cursor • Antigravity

Foundations: C • C++ • OOP • Data Structures • Algorithm

EDUCATION

Bachelor's Degree, Faculty of Applied Arts

Helwan University • GPA: 3.21

Sep 2020 – Jul 2025

Cairo, Egypt

TRAINING & CERTIFICATIONS

The Web Developer Bootcamp — *Colt Steele, Udemy*

Jan 2025 – Jul 2025

Frontend Development Training Certificate — *Route Academy*

Jun 2025 – Feb 2026

LANGUAGES

- **Arabic** — Native
- **English** — Conversational
